## 〈ESG NEWS〉

### **OSG continues to support the “Shuzo Challenge” this year, following last year.**

OSG continues to support the “Shuzo Challenge” this year, as it did last year. The “Shuzo Challenge” is a part of the Japan Tennis Association’s Men’s Junior Strengthening Project (Fuji Project). The “Shuzo Challenge” is a men’s junior player strengthening camp, where Shuzo Matsuoka, a director of the Japan Tennis Association and deputy director of the Strengthening and Development Department, aims to nurture male players who can perform at the top level in the world in the future. He provides guidance along with staff from various specialized fields such as technique, tactics, physical, and mental.

This year, as a new initiative, a strengthening camp was held from April 29 to May 1, 2024, using the tennis court operated by OSG (in Toyokawa City) and OSG’s accommodation facilities. Under the guidance of the Japan Tennis Association’s coaches, the purpose of the camp was to prepare for future world tournaments. Six junior players in their second and third year of junior high school, who have experience participating in and winning world tournaments, participated in this camp.

OSG, through the promotion of sports, is committed to creating an environment where each employee can work “brightly”, “enjoyably”, and “energetically” every day. With the philosophy that “a company is a public instrument of society”, we will continue to contribute to the sustainability of the region, society, and the earth, aiming for a prosperous future.

OSG will continue to promote health management and pursue the wellbeing of our employees.
